# It's Lovely To Have You Here

First of all, thank you for being here and for taking the time to download this brochure. If you have already had a wander around the website, you will know that Fantail Photo and Film is all about capturing weddings as they really feel. This little section is where things get a bit more personal.

I am the face behind the camera, the calm presence on your wedding day, and the person quietly happy crying behind a lens when the vows hit just right. I love weddings that feel relaxed, full of genuine emotion, and completely true to the couple at the centre of it all. No awkward posing marathons, no forced moments, just real people having a really good day.

I believe the best photos and films come from trust, comfort, and a bit of fun along the way. If you want someone who blends in like a guest, notices the small moments, and cares deeply about telling your story honestly, you are in exactly the right place.

A bride and groom are walking away from the camera on a gravel path that winds through a lush green field. The bride is on the left, wearing a long, flowing white wedding dress with a long, sheer veil. The groom is on the right, wearing a bright blue suit and brown shoes. The background is filled with tall grass and dense green foliage, creating a romantic and natural setting. The lighting is soft and warm, suggesting late afternoon or early morning.

## SERVICES

# How I Work

My approach is simple. I let your day unfold naturally and I document it as it happens.

I do not believe in over orchestrating moments or pulling you away from your guests for endless posing. Your wedding day is not a photoshoot. It is a real day full of real emotions, and that is where the magic is. The nervous smiles before the ceremony, the way your hands find each other without thinking, the laughter that comes from absolutely nowhere.

Most of the time, you will barely notice I am there. I blend into the background, quietly observing and capturing what feels honest and unforced. I might offer gentle guidance when it helps, especially during couple portraits, but only enough to keep things feeling relaxed and natural. No stiff poses. No pretending. Just you being yourselves.

## KIND WORDS

“We hired Caris as a photographer at our wedding celebration. Not only were her photos absolutely stunning, but she was also a genuinely lovely person. I barely even noticed her presence, yet she managed to capture so much natural joy”
